

PARTNER PROGRAMME · FOR EUROPEAN SMES

The API layer *your software is needing.*

We build production-ready AI & IoT APIs that integrators and software vendors embed to ship intelligent features without rebuilding the stack. Made in Asturias, Spain — looking for European SME partners to grow together. More than 40 microservices already built for your needs.

SIX APIS · ONE INTEGRATION LAYER FOR YOUR PRODUCT

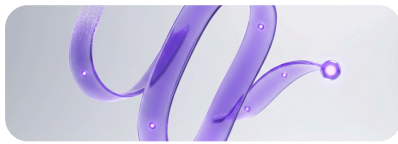

AI

api_talk2doc

Talk to your documents.

Multi-tenant RAG + knowledge graph over your PDFs, e-mails and contracts. Nine connectors (S3, SFTP, SMB, GDrive, Frappe...). Live at talk2doc.pibico.es.

AI

api_script

Automation that writes itself.

Procurement orders, project briefs and grant applications, drafted by AI. Plugs into your auth and document stack — drop-in writer for the back office. Live at api.pibico.es/script.

IoT

api_edge

From sensor to insight.

MQTT gateway for industrial sensors. Streams to TimescaleDB, evaluates thresholds with stability windows, pushes real-time alerts to dashboards. Live at api.pibico.es/apiedge.

IoT

pibiConsum

Consumption, measured.

Energy optimisation for SMEs and homes. AI forecasting, anomaly detection and exogenous correlation (weather, grid prices). Live at consum.pibico.es.

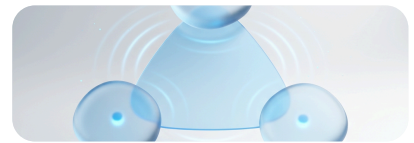

ORCHESTRATION

api_scheduler

Choreography in time.

Primavera P6 (XER) import, CPM forward/backward, DCMA-14 quality, S-curves, baselines and read-only shares. Multi-tenant SaaS at mts.pibico.es.

ORCHESTRATION

api_collab

Shared presence, in real time.

Tasks, agenda, meetings, notes, voice, scripts and PDF signing — one multi-tenant FastAPI backend, web + Android. Live at collab.pibico.es.

WHO WE'RE LOOKING TO PARTNER WITH

System Integrators

Serving Companies who need AI/IoT building blocks ready to embed into their offering.

SaaS Vendors

ISVs adding intelligent features as an embedded layer of their existing product.

Industrial OEMs

Manufacturers needing a clean edge-to-cloud API layer behind their devices.

Domain Consultancies

Boutiques selling outcomes who want a trusted delivery partner for the backend.

LET'S TALK IN PARIS

Build joint go-to-market with pibiCo
